Enabling everyone to flourish by practising a sporting activity is one of the challenges that the « Service des Sports de la Province de Liège » has embarked. So, through its sports policy, the Provincial College attaches particular importance to making sport accessible to every citizen, regardless of age, physical abilities or social status. It is with this in mind that was created the Academy of Sports, a formidable tool, unique in Belgium, declined for each age category. So, thanks to this Academy, children from 4 to 11 years old can discover three sports a year, for a most democratic prize. Teenagers, for their part, have access to more specific disciplines such as sailing, caving or climbing. Finally, seniors are not left behind as they will soon also be entitled to their own sports academy ! Aware that different handicaps may be a brake on the practice of sport, the Province of Liège has also set up the adapted Academy. In this spirit of « Sport for all », the Province of Liège is keen to support the Eurogym, a competition that values this discipline and allows all clubs, regardless of their level, to participate in this international competition where there will be 5000 gymnasts from the four corners of the continent. The Eurogym highlights the sports values that are dear to us, such as going beyond oneself, mutual aid or sharing. Thanks to the « Workshops » participants will have the opportunity to experience new sports, to meet and to share their experiences. The Province of Liège already has a solid experience in hosting and organizing major international events, both in sports and in other fields.

Cyclically we welcome the classic cycle races from the Ardennes « La Flèche Wallonne » and « Liège-Bastogne-Liège » and next July we will welcome for the 19th time the passage of the Tour de France in our Province. The Province of Liège has also been the scene since 2001 of several prestigious sporting encounters such as Davis Cup and Fed Cup, as well as some major international table tennis competitions. Every year, Liège also hosts an international jumping event and an international athletic meeting. Finally, from August 6 to 12, 2017, in the natural extension of a 2016 provincial year devoted to citizenship, we will organize in Liège the first « World Conference of Humanities » under the auspices of UNESCO. Beautiful sporting, human and citizen moments are to be expected, of which this 11th edition of the Eurogym that the Province of Liège is particularly proud and honored to host on its territory.

WELCOME TO LIEGE

Liège is a thousand-year-old city that conceals countless of treasures to discover. The river Meuse, which goes through the city from South to North, the steep and wooded hills who are surrounding it, its sharp relief which increases the original lights as well as the typical areas are giving to the city surprising charms.-

A very present folklore kept alive by a cheerful population always ready to feast, lively areas and a large number of restaurants do achieve to make of it a must-visit stopping place of Belgium, not counting an intense cultural and artistic life and a significant architectural patrimony.

For the shopping addicts, all kind of shops are grouped together in the city center and the pedestrian streets: renowned fashion designer, young milliners, department stores, designers, delicatessen...

There you will find everything you are looking for, and no doubt everything you are not looking for. The « Marché de la Batte » is the biggest and the oldest market of Belgium, a veritable institution

The colored market stands propose fruit and vegetables, cheese, cloths, flowers, books ... under the calls of the stallholders who praise the price and the freshness of their products in Walloon.

Liège and Sport, it's a long story! A decade ago, Liège has received three Euro 2000 matches. 12, 18 and 21 June are still very present in the football fans memories. The Town also was twice the starting point of the Tour de France: in 2004 and in 2012, and each year, she is receiving a staging point.

Liège counts so many good eating places that the most difficult remains the choice where to go. From the small cheap tasty dish to the « de luxe » dinner, from the local specialties to the most exotic of dishes, you will always find food suitable to your wishes.

Architecturally the Town of Liège isn't outdone. It owns one of the most beautiful archaeological collection of the world as well as collections of weapons, religious art, decorative arts and art of glass making. The art galleries from Liège conceal discoveries such as, for example, the Aquarium-Museum of the University of Liège, center of excellence of the animal biodiversity, or the Grand Curtius proposing exhibitions throughout the year to highlight one or another aspect of the museum collections from Liège.

LET'S DREAM TOGETHER

Behind our slogan is the desire to gather and federate around the EUROGYM all the people present by creating meetings, exchanges and sharing among participants from all walks of life.

In order to further strengthen this sense of solidarity and give meaning to our slogan, we also want to set up a collaboration with reception centers in the region. Our goal will be to involving a group of stateless young people in EUROGYM to «**dream together**» and make the 11th edition of this event a memorable one for all !
